

## **Te Whatu Ora Essential for Discharge Quick Reference Guide**

The Essential for Discharge programme is available for planned discharges to reduce duplication of equipment prescription, enabling clients to receive long term equipment items in real time. It is available on **weekdays only** for:

- Planned discharge with at least one day's notice.
- Essential items only.
- Requests that meet the EMS criteria.

### **Process**

1. By 11 am, submit a service request for one of the bundles in the aSAP catalogue named 'Essential for Discharge'.
2. In the summary, enter the text 'Essential for Discharge'. If this is not entered exactly, the application will not be identified correctly.
3. Also in the summary, enter the date of discharge.
4. Wait for a text from Accessable. The text will be sent to the phone number in the application and arrive by 2.30 pm that day.
5. If 'Y', this is confirmation that the equipment will be delivered to the client's address the next working day, or the date indicated in the summary.
6. If 'N', this indicates the equipment is unable to be supplied and a rental will need to be put in place.

### **Notes:**

1. There are 20 bundles available to select, which include a combination of Etude bed, mattress (including air alternating) and rails. There are two additional bundles for hoist and sling.
2. Accessable may be able to process applications up until 12 pm, however this will be on a case-by-case basis.
3. Equipment other than an Essential for Discharge bundle can be selected on the same service request, however these other items will be processed as normal and will not arrive at the same time as the Essential for Discharge items.
4. Rationale is still required, however mandatory advice is not.

Bundle	Supplier Code	Includes
Essential for Discharge Bundle 01	PKG-ETUDE PLUS STD,SPM197/88	1 x EC102 Etude or Medley Ergo bed 1 x EC123 soft form mattress
