

## When to submit an EMS Advice Request

Advice should be sought whenever clarification is required regarding how a client, situation or solution aligns with the EMS funding criteria.

Advice is mandatory in some situations, see <u>mandatory consultation with an EMS advisor</u> for detailed information.

These situations include (but are not limited to):

Equipment	
PSCHSM	Likely to cost more than \$5,000 – Note: Band 1 and
	2 are excluded unless moderation is required on a
	case by case basis
WLKSTD	Likely to cost more than \$5,000 – Note: Band 1 and
	2 are excluded unless moderation is required on a
	case by case basis
WMPM/CAT Level 1	Likely to cost more than \$5,000
WMPM/CAT Level 2	Likely to cost more than \$18,000
Cost contribution or retrospective funding	
Liaison between assessment services	e.g. joint Ministry of Education/Disability Services (MSD)
People moving into aged care facilities	Customised or individualised equipment
New technology	Not previously commonly provided or situation or
	solution unique
Challenging behaviours	Excluding sensomats

Vehicle purchase and modifications	
All vehicle purchases	
Self drive from wheelchair	
Already modified vehicles	
Joint funding	e.g. Lottery Grants
Consideration of new technology	Not previously commonly provided

Complex housing modifications  Mandatory referral to NASC  Previous funding  Long term sustainability  Not the person's primary full-time residence  Major modifications for Kāinga home  Unique solutions  Replacement of low-rise lifts  Cost contribution nor retrospective funding  Land ownership issues  Remedial work  New home builds or extensive renovations  External modifications  Access solution 1 meter or above  Mandatory consultation with an EMS  See mandatory consultation with an EMS  Mandatory referral to NASC  Previous funding  Unclear if person will remain in their hom years  e.g. shared care situations  Or private rental property  Or modular ramps  Where remedial work likely to be required where EMS funding is requested for specific modifications
